EDUCATION

[Ballari Instution of Technology and Managment]
B.E. in Computer Science and Engineering (Data Science)

[2025 – 2029]
[Ballari], INDIA

CGPA: [9.25]

TECHNICAL SKILLS

Programming: Python, C

Libraries/Frameworks: NumPy, Pandas

Tools: Jupyter Notebook, VS Code, GitHub,Turbo C

PROJECTS

AI-Powered House Plan Recommendation System

2026

Tech: Python, Streamlit, Machine Learning

- Developed an application that recommends house plans based on budget, plot size, number of rooms, and user preferences.
- Designed an interactive interface for collecting user requirements and generating customized recommendations.

Cafeteria Token Management System

2026

Tech: Python, Web Development, Database

- Developed a digital cafeteria ordering system with token generation and order tracking.
- Implemented order status, estimated waiting time, and separate functionality for customers, staff, and administrators.

Travel Budget Splitter

2026

Tech: C, Structures, Arrays, Functions

- Developed a menu-driven application for managing and splitting group travel expenses.
- Calculated total expenses, individual shares, and payment balances between participants.

AREAS OF INTEREST

Data Science — Artificial Intelligence — Web Development
